Forecast for Thursday 04 May 2023

Weather: Some low cloud may linger across the tops at first which will quickly lift and give a fine and dry day, before outbreaks of rain spread erratically north-eastwards across the Dales during the evening. Winds picking up to a strong and gusty easterly wind.

Chance of cloud-free hill tops above 600m: 40% at first, rising to 90% for most of the day, lowering again after dark.

Low Cloud and visibility: Overnight/ early morning cloud likely above 400m, lifting and breaking quickly during the morning to give generally good visibility with distant hills visible. Visibility deteriorating in any outbreaks of rain through the evening.
